**ROBERT
PITTS**

Director
Hacer Group

www.hacergroup.com.au

"We first formed a relationship with Koustas & Co. in 1999 when my fellow director, Kevin Hibberson, and I were looking to commence our own construction company, Hacer Group.

In the early stages of formalising our company, Koustas & Co undertook consulting work and planning to establish our business structure and required investment entities. They also assisted in establishing our accounting system, administration requirements, monitored our management reports and cash flow implications, provided advice and assistance in relation to the establishment of an Equityholders Agreement, and consultation in respect of various insurances.

Regarding our Accounting Software, Koustas & Co assisted with the selection of the Cheops program and its implementation, including assisting and establishing protocols in relation to Work in Progress calculations and management, and timing aspects – all vital to our construction business.

We would have no hesitation in recommending Koustas & Co.

Should you wish me to expand upon any of the items noted above, I can be contacted on (03) 9810 6888."
