iComm Australia

Rob Dell
“Bringing Communications to Life”
Managing Director of icomm
icomm.com.au

“Koustas and Co have been our accountants since we first bought the business in 2001. During this time our business has grown considerably. In line with that, our reliance we have on Koustas for financial advice and support has also grown. We now have a deep relationship where board level style conversations are held monthly, to assist with the direction our business has taken. The benefit we receive from this has been extremely valuable, and has assisted many decisions we have made along the way. All this has been achieved with a professional approach, a direct, well thought out response and above all, a close bond has formed to allow these frank discussions to occur. They have been very good for our business.”

To learn more about how we can provide you with expert financial support, contact Matthew, our Business + Practice Development Manager:
